

Dear Prospective Customer,

Congratulations on choosing Strata Networks! If you do not own your residence, you must obtain landlord approval before installation to avoid potential lease violations.

Installation may require minor modifications, such as drilling for necessary cabling. Some leases prohibit such changes, particularly in multi-tenant buildings. Please review your lease and obtain landlord approval if required.

If approval is needed, your landlord or an authorized representative must sign this form. Alternatively, if your lease does not require approval or your landlord has verbally granted permission, please indicate this below and sign the form. **You must provide the signed form to the Strata technician at the time of installation.**

By signing, you authorize Strata Networks to install your service and release Strata Networks and its technicians from liability for any claims your landlord may make regarding lease violations due to installation.

If your landlord imposes special installation requirements beyond Strata's standard service, you may be responsible for additional costs, which will be agreed upon before installation. In rare cases, technical limitations may prevent installation, in which case you will receive a full refund.

Thank you for choosing Strata Networks!

**Please select one of the following options:**

I certify that I have received verbal approval from my landlord to install services *(or is not required pursuant to my lease or rental agreement)*.

I certify that I am the landlord or authorized landlord representative.
